

NIKHIL AKKENAPALLY

Hyderabad, India

☎ +91 63057 53754 — ✉ akkenapallynikhil313@gmail.com — 🌐 LinkedIn — 🏠 GitHub — 📁 LeetCode — 🏆 Credly

Professional Summary

Information Technology undergraduate skilled in Python, Machine Learning, Generative AI, and Large Language Models (LLMs). Experienced in developing AI-powered applications through projects and internships, with strong problem-solving and software engineering skills.

Education

Chaitanya Bharathi Institute of Technology

Aug 2024 – Present

Bachelor of Engineering in Information Technology

CGPA: 9.4

VMR Polytechnic College

Jun 2021 – May 2024

Diploma in Computer Science and Engineering

CGPA: 9.9

Experience

Viswam AI

May 2025 – Jun 2025

AI Developer Intern

Hyderabad, India

- Developed AI applications using Large Language Models (LLMs), prompt engineering, and Generative AI technologies.
- Built AI-powered solutions using Python, REST APIs, and web technologies to enhance user interaction.
- Developed and tested intelligent applications through debugging, testing, and performance optimization.
- Collaborated on AI automation projects to deliver practical industry-oriented AI solutions.

Projects

AI Study Buddy | *React.js, Node.js, Express.js, Gemini API*

[GitHub](#)

- Developed an AI-powered study assistant using the Gemini API for personalized learning support and assistance.
- Integrated React frontend with Express.js backend using REST APIs for seamless AI-powered interactions.
- Implemented interactive chat and study assistance to enhance the overall learning experience.

Medical Camp Assistant AI | *Python, Gemini API, Streamlit*

[GitHub](#)

- Developed an AI-powered medical assistant to support patient registration and health-related query assistance.
- Integrated the Gemini API to generate intelligent responses and improve user interaction.
- Built an interactive interface for efficient healthcare assistance and information management.

House Price Prediction | *Python, Scikit-learn, Pandas*

[GitHub](#)

- Developed a machine learning model to predict house prices using regression techniques and real-world datasets.
- Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy.
- Visualized prediction results and analyzed model performance using Python data science libraries.

Technical Skills

Languages: Python, Java, JavaScript, C, SQL

AI/ML: Machine Learning, Gemini API, Prompt Engineering, Generative AI, LLMs

Web Technologies: HTML, CSS, React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, AWS

Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Software Development: SDLC, Agile Methodology, Full-Stack Development, Authentication

Leadership

Credit Card Fraud Detection System

2025

Team Head

Academic Project

- Led a team in developing a machine learning-based credit card fraud detection system using Random Forest.
- Coordinated data preprocessing, feature engineering, model evaluation, and team task allocation.
- Collaborated with team members to improve fraud detection accuracy and ensure timely project completion.

Certifications

MongoDB Certified Associate Developer
